Drydocks World beats record

Date : April 15, 2015

Author : admin

Drydocks World has set a record with 37 projects in the yard at one time

Drydocks World recently handled 37 projects simultaneously at its Dubai yard, exceeding its previous record of 35 vessels. Eight of these vessels were dry-docked in Dock 2, which the company says ‘took remarkable skill, planning and manoeuvring.’

The 37 vessels included dredgers, rigs, gas carriers, tankers and container ships for clients such as Chevron Shipping, Technip, Saudi Aramco, Shelf Drilling, Saipem, the National Drilling Company, Excelerate Energy and Aban Offshore. The yard recently completed a refurbishment project for NDC’s offshore drilling rig Beynouna and turned around this major repair ahead of schedule in just 28 days. This project include dry-docking, hull treatment, crane and accommodation repairs. A total of 40 tons of steel was used in 21 tanks, with the pipe shop renewing all sea water pipes in just 7 days.
